Real people, shared ideas. Netlify community evening, Barcelona, October 2026.

Already building with us

NETLIFY

Builders deployed live apps with Netlify during a hands-on workshop. Netlify later returned for a community evening with its leadership team.

Events together

HackNight #4: Build with Netlify

Netlify @ Barcelona

Read the public recap

QUALITY CLOUDS

Quality Clouds brought its Norma code-review tool to the Production Ready challenge. Teams used it on their AI-generated code, and the partner praised the technical talent and seeing Norma used live.

68 projects at HackBarna v3

Two ways to participate

Support the community

+ Help fund food, drinks, or event costs

+ Bring your team and meet the builders

+ Your brand on the event page and in the recap

Support an event

Build around your technology

+ Run a workshop or challenge around your product

+ Bring your engineers to help teams build

+ See what people build and hear their feedback

Build with us

Available for Hack Nights and our flagship hackathon. Professional video production is available separately.

Host the next gathering

Have an office, coworking space, or venue in Barcelona? You bring the room and Wi-Fi. We bring the community and programme.
